

- - - - - fold
 _____ cut

INSTRUCTIONS (available at transthetics.com/flatpacker.pdf)

1. Print this template at 100%
2. Lay it over a plastic sheet* (It is recommended to tape all four sides of the template to the plastic sheet to prevent misalignment.)
3. With a ruler and ball point pen, trace firmly over all lines so that the pen leaves an impression on the plastic sheet. It can help to lay it over a slightly soft surface such as a notebook.
4. Remove the template and cut along all continuous lines.
5. Fold along all dashed lines.
6. Tape where indicated.

* You can purchase single plastic sheets from most art supply stores for about a dollar each.
